Chairman Loftis called for a motion to close the Public Hearing.

On motion introduced by Commissioner Price and seconded by Commissioner Brown, the BOC unanimously closed the Public Hearing.

EDC - To Receive the Economic Impact Study on the East-West Connector (Garden Parkway)

Mr. Duane McCallister, EDC Chairman, advised that the Economic Development Commission and the Gaston Regional Chamber viewed subject presentation on 4/19; that the Garden Parkway Project was an important priority of the EDC Strategic Plan; it would be as transformational as I-85 was some 50 years ago; connectivity to Charlotte-Mecklenburg would be greatly enhanced as well as connectivity in southern Gaston County. He stated that the level of service on US-74 and I-85 would be improved; that Exits 19 and 27 now carry NC-DOT level grades of D, E, or F; traffic would increase from 30% to 50% over the next 25 years; that NC-DOT considered eleven alternatives to improve connectivity and levels of service and chose Parkway completion with Alternative 9. Mr. McCallister stated that the EDC was interested in the economic impact and commissioned Dr. John Connaughton, UNC-Charlotte, to complete an economic impact study with instruction to build his research starting from initial data.

Dr. Connaughton indicated that the Report Organization included an overview, literature review, and economic impact as devised from 1980 to 2010 data. He related the loss of some 38,000 manufacturing jobs and 20,000 textile jobs during that time period which led to a structural change resulting in today's more diversified economy. Citing Gaston's weak economic performance of the past 30 years, as compared to other counties surrounding Mecklenburg, and its geographic isolation due to the Catawba River, Dr. Connaughton described the Parkway as a 21.8 mile limited access highway connecting I-485 to I-85 as well as other points within the County. He stated that nine interchanges would be involved (eight of which would be in Gaston) and estimated a four-year construction period at an estimated cost of \$870M with 2,600 jobs being developed during Parkway construction. Under the build, building alternative and no-build scenarios forecasted to 2035, he projected increases in County population, number of households, and number of jobs stating that "the construction of the Garden Parkway had the potential to change future economic fortunes of Gaston County."

Commissioner Keigher asked Dr. Connaughton to elaborate on the \$90M Intermodal Facility proposed for Douglas International Airport in Mecklenburg County.

Dr. Connaughton responded that the proposed Intermodal Facility was not included in the Study; that anything it would do would be in addition to the report. He encouraged people to look at the Parkway not as transportation relief, but as economic relief for the future.

Indicating that other counties may have grown faster due to the fact I-485 was built prior to Gaston's side being built, Commissioner Brown agreed to being locked out by the Catawba River; stated that people may not want to pay toll fees of \$3.50 to \$5.50 or whatever; asked who would pay for the toll road at the end of the 39 years if citizens choose not to use the road.

COMMISSIONER'S COURT

APRIL 27, 2011

GASTON COUNTY, NORTH CAROLINA

Dr. Connaughton responded that transportation flows that determine user numbers and toll collections were outside the purview of his study; engineering folks and bond sellers would provide that information.

Commissioner Brown noted his hesitation to support the project without being aware of which way the County came in the study.

The County Manager advised of attending a meeting with Mr. Bob Clay, NC Turnpike Authority member, and a question was asked of the engineer as to the success rate of toll roads.

Mr. Clay recalled meeting with Chief DeWitt in Raleigh where failed roads were discussed; that 3 or 4 had failed out of 146 projects; that it was important to know that NC-DOT backs the bond; cost burden would be lessened due to being equally distributed across all counties in the State as with any other road being built; cited proven records that tolls do pay for roads because people use them for efficiencies.

Mr. McCallister distributed a copy of the commentary and also distributed the Economic Impact of the Garden Parkway Draft as prepared by Dr. Connaughton and dated 4/19/2011.

On motion introduced by Commissioner Keigher and seconded by Commissioner Philbeck, the BOC unanimously accepted the documents as information. (Subject documents are on file with the Clerk to the BOC.)
