

Town of Huntersville 2004 Enhancement Funds Requests

Torrance Creek Tributary #2 Greenway Trail: \$570,000

This greenway trail will lead under the relocation of Gilead Road (TIP Project # R-3807) linking an existing section of greenway within the Cedarfield neighborhood to a Huntersville Town Park and to a mixed-use pedestrian friendly development known as Rosedale. It provides linkages among residential, employment, retail, and recreational destinations. Phase 1, a partnership with Mecklenburg County Park and Recreation to fund the Gilead Road underpass as part of the roadway project, is under construction. Phase 2, the greenway trail of approximately one (1) mile in length plus a bridge over Torrance Creek, is anticipated to cost \$400,000. \$200,000 in enhancement funding is requested.
