<div align="center">

CTP Map Summary Report
Topic Outline
DRAFT for Discussion 11/14/12

</div>

- The CTP Map Summary Report would function as an executive summary that explains the CTP and how to use the maps that are adopted as part of the CTP.
- The Map Summary Report would accompany the MUMPO-adopted maps/schedule.
- The CTP Full (?) Report would be more detailed, a "living" Report, and would not accompany the adopted maps/schedule.
- The following represents a draft topical outline for the Map/Summary Report:

1. Purpose(s) of the CTP and CTP Maps
   a. Background and brief history of change from Thoroughfare Plan to CTP

2. Assumptions and Intent for MUMPO's CTP and CTP Maps

3. Definitions/descriptions of the Maps (regional "generic")
   a. Description of the four maps and how to use them
   b. Definitions of the categories used for each of the adopted maps
   c. Sources for category designations (including description of how the database works)

4. Implementation of the CTP (regional "generic") or "how, and by whom, streets get built or modified"
   a. Ordinances
   b. Projects (Possible CIP projects)
   c. Generic multi-modal problem statements/"identified problem"
      i. Elements that should be included in a multi-modal problem statement
      ii. Examples of "categories" of multi-modal problem statements

5. Implementation (local "also generic")
   a. Ordinances
   b. Projects
   c. Generic multi-modal problem statements

6. Description of Update Process
   a. For the CTP and Summary Report
   b. For the "living" CTP Report
   c. How the CTP will be amended (additions, deletions, alignments, e.g.)
      i. Defining "technical" decisions versus "policy" decisions
      ii. Proposed process(es) for each
