

## **SMALL BUSINESS ENTERPRISE UTILIZATION REPORT**

**FY 2009 Mid-Year Report (July—December 2008)**

**BUSINESS**  
OPPORTUNITY • INVESTMENT • GROWTH

The City of Charlotte's Small Business Opportunity (SBO) Program continues to grow and develop small businesses in the Charlotte Regional Area. Through the Small Business Enterprise (SBE) Certification, the SBO Program identifies, tracks, and reports SBE utilization within City purchasing. Additionally, the SBO Program remains focused on building strong business environments through our outreach, partnerships, and auxiliary services.

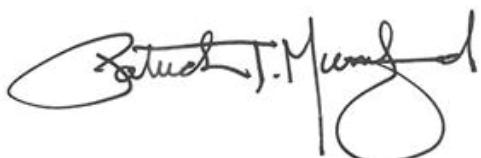

During the first six months of Fiscal Year (FY) 2009<sup>1</sup>, the SBO Program continued to meet many of its goals, however SBE utilization did decline in some areas. Staff also spent significant time on a program review directed by Council's Restructuring Government Committee, and on correcting a discrepancy with the City's internal SBE reporting system. The discrepancy resulted in some transactions not being reported in previous quarterly reports.

This SBE Utilization Report highlights performance measures for the first six months of the FY 2009 reporting period. The metrics reported as "BASELINE" reflect activity absent the discovered additional transactions, and serve to benchmark against FY 2008 measures. The metrics reported as "ADJUSTED" account for the inclusion of the additional FY 2009 transactions and serve to establish a new baseline moving forward.

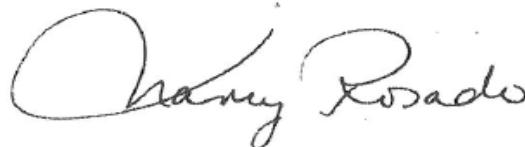

Several achievements showcase the City's commitment to fostering development of small businesses in our community. Some highlights during the first half of FY 2009 include:

- SBE payments on Informal and Formal contracts increased by 9.19% (BASELINE) and 24.99% (ADJUSTED), compared to FY 2008
- Minority/Women expenditures increased by 9.52% (BASELINE) and 17.17% (ADJUSTED)
- No findings of disparity in construction subcontracting existed within any of the ownership categories (See FY 2009 Construction Subcontractor Utilization chart on page 5)
- The Mentor Protégé Program exceeded its development target by 10%
- Partnerships in several large Public-Private development projects continue, such as the NASCAR Hall of Fame and Wells Fargo Cultural Campus, leveraging additional opportunities for local, small businesses

The SBO Program and the City of Charlotte are committed to continuous improvement in our service delivery. By consistently evaluating our management processes against best practices in the industry we will continue to improve our efficiency, effectiveness and flexibility so we may continue to foster growth to small businesses in the Charlotte Regional Area.

Neighborhood & Business Services

Nancy Rosado, Manager  
Small Business Opportunity Program

<sup>1</sup> FY2009 begins July 1, 2008 and ends June 30, 2009. This report covers activity from July through December 2008.

**Organizational Commitment.** The success of the SBO Program relies heavily on the collective commitments of our Key Business Units (KBU). Many SBEs provide goods and services, from catering to technology solutions to construction services, and KBUs continue to explore ways to engage SBEs within their procurement efforts.

## Citywide Informal Purchases

(Construction contracts less than \$200,000 and all other Contracts less than \$100,000)

### ADJUSTED

#### FY 2009 Highlights

- \$39.42 million in informal contract purchases were analyzed during the first six months of FY 2009.
- \$3.57 million or 9.06 % was spent with SBE firms during this time period.

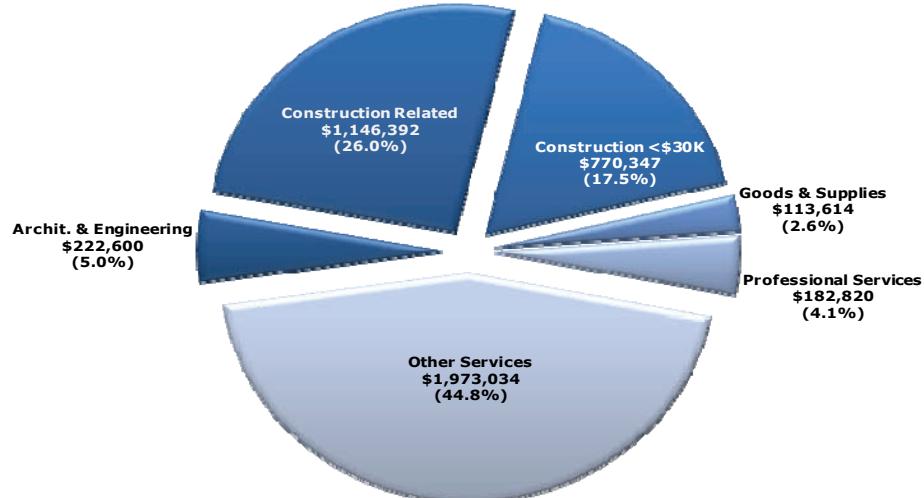

### BASELINE

#### FY 2009 Mid-Year Highlights

- \$31.21 million in informal contract purchases were analyzed during the first six months of FY 2009.
- \$2.97 million or 9.51% was spent with SBE firms during this time period.

#### FY 2008 Mid-Year Highlights

- \$35.82 million in informal contract purchases were analyzed during the first six months of FY 2008.
- \$4.41 million or 12.31% was spent with SBE firms during this time period.

<sup>1</sup> Other Services include services that are labor intensive and not professional or construction related, including, but not limited to: catering, janitorial, printing, and security services.

## Citywide Minority / Women Business Participation

### Informal and Formal Purchases (July–December)

Citywide Informal and Formal spending totaled more than \$256 million in ADJUSTED purchases (\$204 million in BASELINE activity). Of this amount, \$28.34 million or 11.06% of the ADJUSTED purchases were spent with minority and/or women-owned firms as “prime contractors” (\$26.49 million or 12.96% in BASELINE activity). For FY 2009, the City met the availability goals in two of the six categories analyzed, based on the ADJUSTED activity.
