

CHARLOTTE-MECKLENBURG POLICE DEPARTMENT ANNUAL SUMMARY: 2004

Darrel Stephens Chief of Police

Research, Planning and Analysis Division

Feb. 16, 2005

Acknowledgements

Offenses, clearances, and arrests are classified and counted in accordance with the national Uniform Crime Reporting (UCR) program.

The jurisdiction population for 2000 was estimated at 625,810 by using the 2000 Census population for the county and subtracting the populations for the five incorporated towns with their own police services. For consistency over the current decade, the populations of the jurisdiction after Census 2000 are now based on Planning Commission estimates published in July of each year. The jurisdiction population for 2003 does not include Mint Hill, although the crime totals do include crimes occurring in Mint Hill during the first half of the year prior to July 1, 2003.

Data in this report was compiled with the assistance of staff in several units. Much of it was extracted from the automated records systems, monthly UCR reports, and other monthly summary reports of traffic collisions and citation/warning ticket records entered by the CMPD Records Bureau.. The district map was created by Monica Nguyen in the department's GIS system. Frank McDowell assisted in retrieving data form the mainframe files. Data for individual CMPD divisions was supplied by Recruitment, International Relations, Communications, Non-Emergency Police Services, HITS, Bomb Squad, Animal Control, K-9, SWAT, Aviation, Volunteer Program, and Research, Planning and Analysis.

¹Population estimates for 2002 and 2003 have been adjusted to use the Planning Commission's annual estimates. The annual population for 2003 does not include Mint Hill, although the crime totals do include crimes occurring in Mint Hill during the first half of the year prior to July 1, 2003.

²Violent Index includes homicide, rape, robbery, and aggravated assault; property Index includes burglary, larceny, vehicle theft and arson.

¹For consistency, the populations of the jurisdiction after Census 2000 are now based on Planning Commission estimates published in July each year; rate calculations for 2001-2002 may therefore may show slight differences from previous annual reports based on estimates from other sources. The population for 2003 does not include Mint Hill, although the crime totals do include crimes occurring in Mint Hill during the first half of the year prior to July 1, 2003.

¹The annual population for 2003 does not include Mint Hill, although the crime totals do include crimes occurring in Mint Hill during the first half of the year prior to July 1, 2003. The population base used in the 2003 calculations showed little change from 2002 due to that exclusion.

¹Clearances and clearance rates are reported in accordance with Uniform Crime Report(UCR) guidelines and include both clearances by arrest and by "exception." An arrest clearance occurs when at least one person is arrested in the case. An "exceptional" clearance occurs when law enforcement has identified at least one offender, but for reasons outside law enforcement control (death of offender, declining of prosecution by victim or district attorney, refusal to extradite, etc.), an arrest is not made.

²The clearance rate is defined by UCR as the percentage that represents the number of cases cleared during the year (regardless of when the offense occurred) divided by the number of cases reported in that year.

The data in the district breakdowns does not include a small number of offenses in which the location of the offense was unknown or was entered without a valid tract assignment. Districts are not equal in geographic size, demographics, zoning/development, and other factors that influence the rate of crimes committed in an area. Therefore, the comparison of raw offense totals across districts is not advisable.

The data in the district breakdowns does not include a small number of offenses in which the location of the offense was unknown or was entered without a valid tract assignment. Districts are not equal in geographic size, demographics, zoning/development, and other factors that influence the rate of crimes committed in an area. Therefore, the comparison of raw offense totals across districts is not advisable.

Note: Divisions are not directly comparable with each other based solely on raw offense totals because they are not equal in geographic size, demographics, zoning/development, and other factors that can influence the rate of crimes committed in an area.

| PART 2 AND OTHER OFFENSES REPORTED ¹ CHARLOTTE-MECKLENBURG POLICE DEPARTMENT: 2003-2004 | | | | | | | | |
|--|--------------|--------------|-----------------|---|---------------------------------|---------------------------------|-----------------|--|
| Crime Categories Number of Offenses: Rate per Estimated 100,000 Population: | | | | | | n: | | |
| | <u>2003</u> | <u>2004</u> | % Change | | 2003 Est. Pop. 674509 | 2004 Est. Pop. 695487 | % Change | |
| NON-AGGRAVATED ASSAULT FORGERY/COUNTERFIET | 11204 567 | 12018 568 | 7.3% 0.2% | | 1661.1 84.1 | 1728.0 81.7 | 4.0% -2.8% | |
| FRAUD EMBEZZLEMENT | 2347 418 | 2068 396 | -11.9% -5.3% | | 348.0 62.0 | 297.3 56.9 | -14.5% -8.1% | |
| VANDALISM/DAMAGE TO PROPERTY SEX OFFENSES | 7517 470 | 7849 535 | 4.4% 13.8% | * | 1114.4 69.7 | 1128.6 76.9 | 1.3% 10.4% | |
| OFFENSES AGAINST THE FAMILY OTHER PART 2 OFFENSES ² | 127 6183 | 155 8021 | 22.0% 29.7% | * | 18.8 916.7 | 22.3 1153.3 | 18.4% 25.8% | |
| TOTAL PART 2 OFFENSES ² | 28833 | 31610 | 9.6% | * | 4274.7 | 4545.0 | 6.3% | |

¹Part 2 Offenses are crimes other than those classified as Index Crimes by the Uniform Crime Reporting (UCR) program. The UCR program does not collect offense data on these categories.

²Much of the increase in the "Other Part 2" category is due to a change in reporting procedures: some drug and other cases are now documented by an offense report where previously they were documented only by the arrest record.

¹An arrest can have multiple charges for different state, local, or federal statutes and ordinances. For UCR counting purposes, each arrest is classified by the highest type of charge on the UCR hierarchy. The totals in this chart reflect the number of arrest events, not the number of charges on each arrest.

^{*}Violent Index includes murder/non-negligent manslaughter, rape, robbery, and aggravated assault; property Index includes burglary, larceny, vehicle theft, and arson.

^{****}Other Part 2 includes, non-aggravated (simple) assault, criminal damage to property, sex offenses (excluding forcible rape), disorderly conduct, DUI, and all other non-traffic arrests.

¹ Under Uniform Crime Reporting procedures, juvenile arrests include all arrests/custodies involving persons under 18 years of age.

^{**&}quot;White Collar"/Fiscal/Property includes forgery, counterfiet, fraud, embezzlement, possession of stolen property.

^{***}Vice/Drugs/Alcohol/Weapons/Gambling includes prostitution, gambling, liquor violations (except DUI), drug violations, and concealed weapons

Total calls received in 2004: 1,084,721

³The population estimates for the C-MPD jurisdiction in 1994-1999 were extrapolated using the Chamber of Commerce's estimates of the yearly percentage changes in the Mecklenburg County population, applied to the 1990 Census base population for the jurisdiction. The 2000 population is based on the Census totals for Mecklenburg County excluding the totals for the incorporated towns (except Mint Hill). The jurisdiction populations after Census 2000 are now based on Planning Commission estimates published in July each year; rate calculations may therefore show slight differences from previous annual reports based on estimates from other sources. The population for 2003 does not include Mint Hill, although the crime totals do include crimes occurring in Mint Hill during the first half of the year prior to July 1, 2003.

¹See notes on page ii on population sources and rate calculations.

¹Violent Index includes homicide, rape, robbery, and aggravated assault.

²See notes on page ii on population sources and rate calculations.

¹Property Index includes burglary, larceny, vehicle theft and arson (arson not included 1973-1979).

²See notes on page ii on population sources and rate calculations.

Uniform Crime Reporting Procedures:

The Charlotte-Mecklenburg Police Department reports offense and arrest statistics in accordance with standard Uniform Crime Reporting (UCR) guidelines. UCR policy states that any adjustments to previous months can be made on the current month's report:

...In tabulating crime counts, an agency may find that offense totals for past months require adjustments due to developments in the investigation or other handling of the matter. It may be necessary to adjust totals reported to UCR for the past month or prior months. Needed adjustments can be made on the current month's report and do not affect the reliability of the figures in that such adjustments tend to equalize each other from month to month over a period of time.

- Uniform Crime Reporting Handbook, FBI, 1984, p. 42-43

We are required to report crime monthly to the UCR program, and we do therefore make an effort to process monthly changes in a timely manner. However, occasionally due to the review and processing required for reclassifying, unfounding or clearing cases, the current month's totals may reflect the processing of a backlog of these changes from previous months.

Clearances include cases cleared by both arrest and exception. An exceptional clearance occurs when the identity and location of an offender have been established through adequate investigation but no arrest will be made due to reasons outside law enforcement (prosecution has been declined by the district attorney or by the victim, offender has died or will not be extradited, etc.). Clearance rates under UCR are calculated by dividing the number of cases cleared during the year by the number of cases reported in the year. The clearances counted each year may thus include clearances of cases reported in previous years.

We do make an effort to present the most accurate information available <u>at the time this report is published</u>. Please notify the Research, Planning, and Analysis office if you have any questions about the data in this report.
