Note: Totals, percent changes, and rankings in this chart are based on the most current on-line operational data from criminal case reports. Each incident report is counted as one case in this data and the date used for each case is the original reporting date. Figures therefore may vary slightly from Uniform Crime Reporting (UCR), which creates static monthly reports based not on the case date but on various activity dates for reporting/unfounding/reclassification and individual counting rules that are victim-based rather than case-based for certain crime types.

*Note: Data in this report is based on preliminary numbers for the most current month. Offenses are counted based on Uniform Crime Reporting (UCR) guidelines.

**The total of 52 in this report is based on the homicides that have occurred so far in 2010. However, the number reported in monthly UCR submissions is 51 due to one case from July of 2009 being unfounded and subtracted (per UCR rules). The investigation in that case revealed that the murder occurred in SC. SC authorities have made an arrest in their case.
