2012 Transportation Survey Results

The 2012 Transportation Survey is a statistically valid household opinion survey regarding transportation-related issues in Charlotte that is completed every two years as recommended in the City's Transportation Action Plan (TAP)

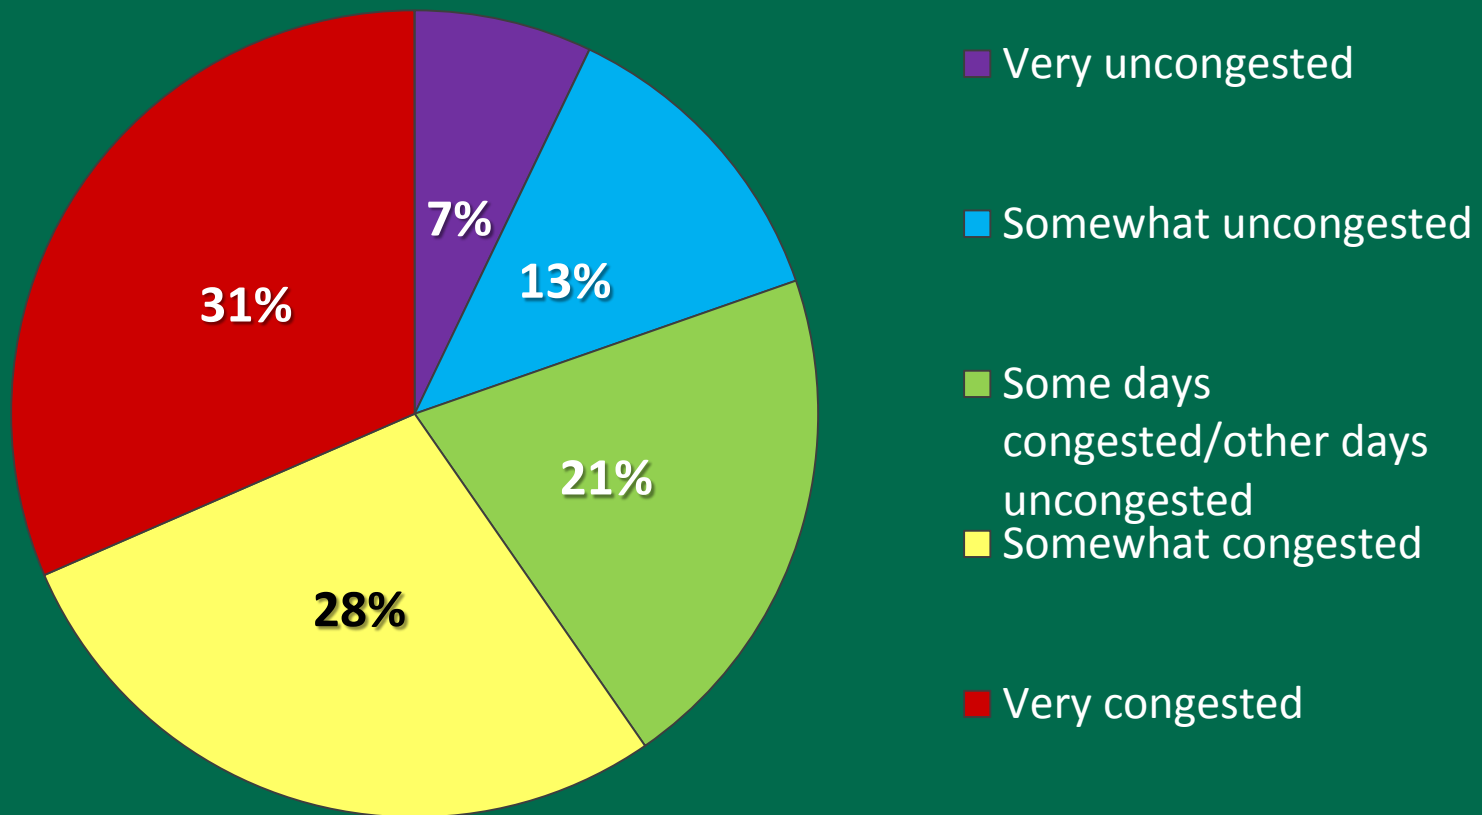

- Policy 4.1.4

The City will continue to implement a bi-annual survey to determine baseline public awareness and knowledge of the strategies recommended in the TAP, including the Centers, Corridors and Wedges Growth Framework and the City's multimodal transportation approach.

- Survey conducted by The Jackson Group
- 406 Households in Charlotte and ETJ
- Selected at random for a telephone survey
 - 142 Landline (35%)
 - 264 Wireless (65%)
- Targets for each ZIP Code based on population
- **Topics include:** existing driving conditions, possible solutions to congestion, priorities for public sector actions, bicycle travel, growth management, speeding and safety concerns, funding for road construction and maintenance, air quality, and household characteristics

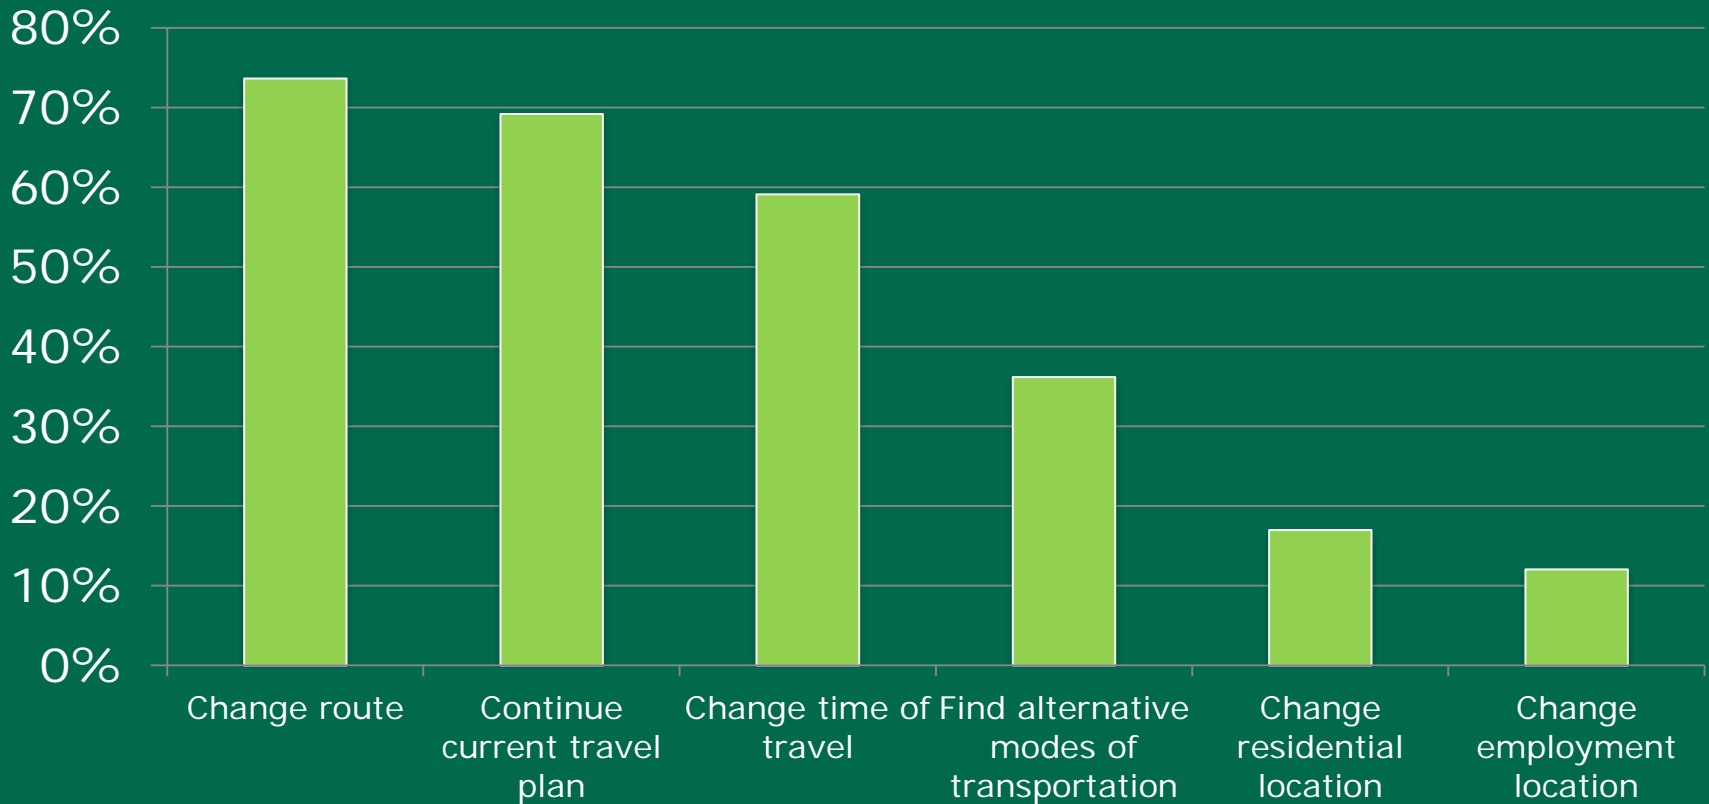

Describe your route to work...

If the route you most frequently take to work is or were to become extremely congested, which of the following actions would you most likely take?

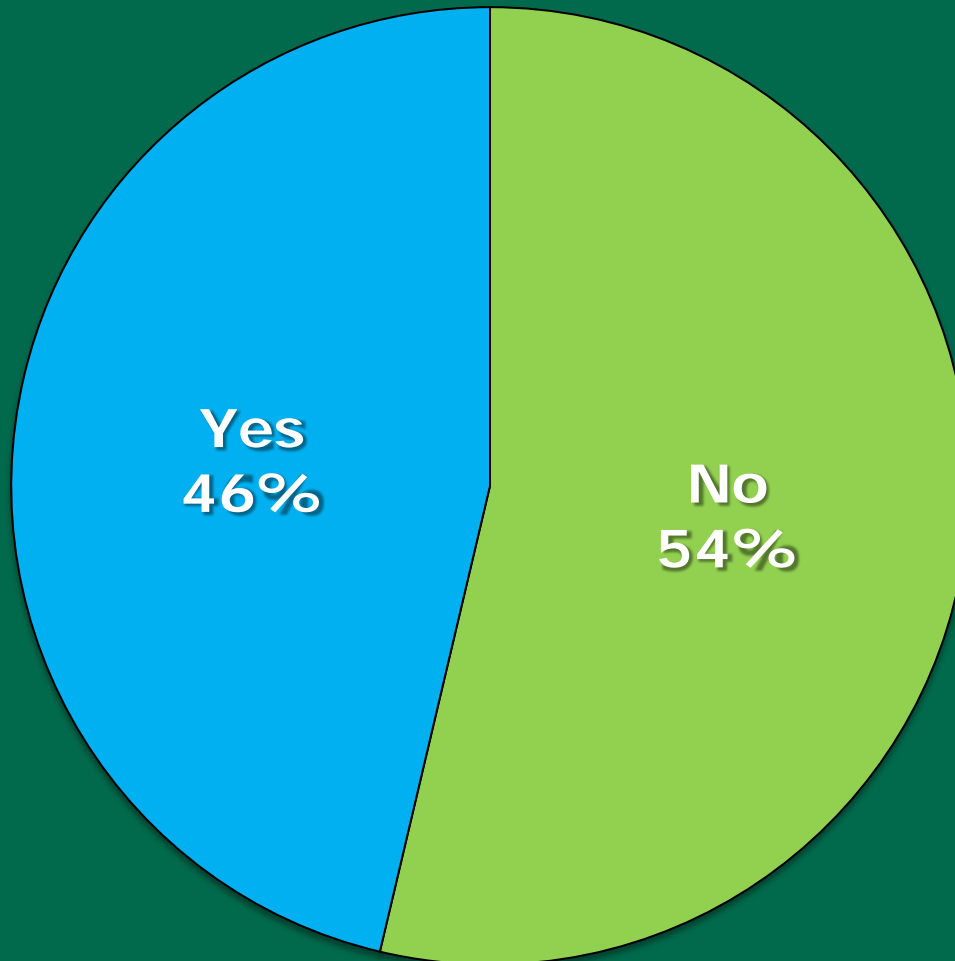

If the route you take to work is or were to become extremely congested, which of the following actions should the City of Charlotte or the State take to relieve congestion?
